Report Overview:

4G LTE is a type of 4G technology, and it delivers the best performance and speeds available today. If you use a lot of data each month or rely on your smartphone or tablet to browse the Internet, 4G LTE is usually the best choice. 4G LTE is about ten times faster than the older 3G technology, so the difference in speed is often quite noticeable when users switch from 3G to 4G LTE.
