Abstracts

Acacia fiber is made from the dried sap of the Acacia Senegal and Acacia Seyal tree belonging to the legume family, native to the Africa region and also found in some Western Asian countries. Acacia fiber powder is also known as acacia gum or gum arabic. Acacia fiber powder is a complex polysaccharide and unlike other fibers, it ferments slowly in the digestive tract, leading to the delayed and gentle release of gas without causing digestive discomfort. Acacia fiber powder helps in weight management by creating a feeling of fullness as it swells when dissolved in water in the stomach and intestine. A key benefits of acacia fiber powder is that it helps in nourishing microbiome in the body, which in turn helps in digestion and metabolism. One tablespoon of acacia fiber powder provides RDA between 21% and 29% for adult women and 16% and 20% for adult men.
