Abstracts

Adhesive back sandpaper is an abrasive product featuring a pressure-sensitive adhesive layer applied to the reverse side of the substrate, which allows it to be mounted onto a variety of backing pads, blocks, or tools without the need for clamps or additional fasteners. This design enhances user convenience, reduces setup time, and improves consistency in sanding applications across industries such as woodworking, metalworking, automotive refinishing, and DIY projects. The product is typically categorized by grit size, backing material (such as paper, film, or cloth), and adhesive strength, with variations tailored to specific uses like contour sanding, fine finishing, or heavy material removal.
