Abstracts

All Terrain Armored Vehicles (ATAVs) are specialized military or security vehicles designed to operate effectively across diverse and challenging environments?including deserts, mountains, snow, mud, and urban terrain?while providing enhanced ballistic and blast protection to occupants. These vehicles typically combine robust mobility features, such as high ground clearance, advanced suspension systems, all-wheel or tracked drive, and amphibious capabilities, with integrated armor plating and defensive systems to resist small arms fire, improvised explosive devices (IEDs), and other battlefield threats.
