Report Overview:

Application Security Software refers to the software tool to protect applications from external threats throughout their lifecycle. Application security is defined as the process of making apps more secure by finding, fixing, and enhancing the security of apps. Much of the process happens during the development phase, security tools and methods are used to protect apps once they are deployed.

The application security market is seeing a rapid growth primarily driven by the increase in the number of cyber-attacks and their sophistication, strict government regulations and growing smartphone penetration and adoption. Additionally, the space has seen a lot of investments by venture capitalists and private equity investors giving rise to a bunch of rising cybersecurity startups in the world. Other factors contributed to the growth of the application security market include the development and adoption of Internet of Things (IoT), digitization and automation in the industrial space, and technological development in the finance space especially in the emerging economies, etc.

The Global Application Security Testing (AST) Software Market Size was estimated at USD 2987.33 million in 2023 and is projected to reach USD 4358.93 million by 2029, exhibiting a CAGR of 6.50% during the forecast period.

This report provides a deep insight into the global Application Security Testing (AST) Software market covering all its essential aspects. This ranges from a macro overview of the market to micro details of the market size, competitive landscape, development trend, niche market, key market drivers and challenges, SWOT analysis, Porter’s five

forces analysis, value chain analysis, etc.

The analysis helps the reader to shape the competition within the industries and strategies for the competitive environment to enhance the potential profit. Furthermore, it provides a simple framework for evaluating and accessing the position of the business organization. The report structure also focuses on the competitive landscape of the Global Application Security Testing (AST) Software Market, this report introduces in detail the market share, market performance, product situation, operation situation, etc. of the main players, which helps the readers in the industry to identify the main competitors and deeply understand the competition pattern of the market.

In a word, this report is a must-read for industry players, investors, researchers, consultants, business strategists, and all those who have any kind of stake or are planning to foray into the Application Security Testing (AST) Software market in any manner.

Global Application Security Testing (AST) Software Market: Market Segmentation Analysis

The research report includes specific segments by region (country), manufacturers, Type, and Application. Market segmentation creates subsets of a market based on product type, end-user or application, Geographic, and other factors. By understanding the market segments, the decision-maker can leverage this targeting in the product, sales, and marketing strategies. Market segments can power your product development cycles by informing how you create product offerings for different segments.

Historical, current, and projected market size, in terms of value

In-depth analysis of the Application Security Testing (AST) Software Market

Overview of the regional outlook of the Application Security Testing (AST) Software Market:

Key Reasons to Buy this Report:

Access to date statistics compiled by our researchers. These provide you with historical and forecast data, which is analyzed to tell you why your market is set to change

This enables you to anticipate market changes to remain ahead of your competitors

You will be able to copy data from the Excel spreadsheet straight into your marketing plans, business presentations, or other strategic documents

The concise analysis, clear graph, and table format will enable you to pinpoint the information you require quickly

Provision of market value (USD Billion) data for each segment and sub-segment

Indicates the region and segment that is expected to witness the fastest growth as well as to dominate the market

Analysis by geography highlighting the consumption of the product/service in the region as well as indicating the factors that are affecting the market within each region

Competitive landscape which incorporates the market ranking of the major players, along with new service/product launches, partnerships, business expansions, and acquisitions in the past five years of companies profiled

Extensive company profiles comprising of company overview, company insights, product benchmarking, and SWOT analysis for the major market players

Note: this report may need to undergo a final check or review and this could take about 48 hours.

Chapter Outline

Chapter 1 mainly introduces the statistical scope of the report, market division standards, and market research methods.

Chapter 2 is an executive summary of different market segments (by region, product type, application, etc), including the market size of each market segment, future development potential, and so on. It offers a high-level view of the current state of the Application Security Testing (AST) Software Market and its likely evolution in the short to mid-term, and long term.

Chapter 3 makes a detailed analysis of the Market's Competitive Landscape of the market and provides the market share, capacity, output, price, latest development plan, merger, and acquisition information of the main manufacturers in the market.

Chapter 4 is the analysis of the whole market industrial chain, including the upstream

+44 20 8123 2220

and downstream of the industry, as well as Porter's five forces analysis.

Chapter 5 introduces the latest developments of the market, the driving factors and restrictive factors of the market, the challenges and risks faced by manufacturers in the industry, and the analysis of relevant policies in the industry.

Chapter 6 provides the analysis of various market segments according to product types, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different market segments.

Chapter 7 provides the analysis of various market segments according to application, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different downstream markets.

Chapter 8 provides a quantitative analysis of the market size and development potential of each region and its main countries and introduces the market development, future development prospects, market space, and capacity of each country in the world.

Chapter 9 introduces the basic situation of the main companies in the market in detail, including product sales revenue, sales volume, price, gross profit margin, market share, product introduction, recent development, etc.

Chapter 10 provides a quantitative analysis of the market size and development potential of each region in the next five years.

Chapter 11 provides a quantitative analysis of the market size and development potential of each market segment (product type and application) in the next five years.

Chapter 12 is the main points and conclusions of the report.

1 RESEARCH METHODOLOGY AND STATISTICAL SCOPE

1.1 Market Definition and Statistical Scope of Application Security Testing (AST) Software
1.2 Key Market Segments
  1.2.1 Application Security Testing (AST) Software Segment by Type
  1.2.2 Application Security Testing (AST) Software Segment by Application
1.3 Methodology & Sources of Information
  1.3.1 Research Methodology
  1.3.2 Research Process
  1.3.3 Market Breakdown and Data Triangulation
  1.3.4 Base Year
  1.3.5 Report Assumptions & Caveats

2 APPLICATION SECURITY TESTING (AST) SOFTWARE MARKET OVERVIEW

2.1 Global Market Overview
2.2 Market Segment Executive Summary
2.3 Global Market Size by Region

3 APPLICATION SECURITY TESTING (AST) SOFTWARE MARKET COMPETITIVE LANDSCAPE

3.1 Global Application Security Testing (AST) Software Revenue Market Share by Company (2019-2024)
3.2 Application Security Testing (AST) Software Market Share by Company Type (Tier 1, Tier 2, and Tier 3)
3.3 Company Application Security Testing (AST) Software Market Size Sites, Area Served, Product Type
3.4 Application Security Testing (AST) Software Market Competitive Situation and Trends
  3.4.1 Application Security Testing (AST) Software Market Concentration Rate
  3.4.2 Global 5 and 10 Largest Application Security Testing (AST) Software Players Market Share by Revenue
  3.4.3 Mergers & Acquisitions, Expansion

4 APPLICATION SECURITY TESTING (AST) SOFTWARE VALUE CHAIN ANALYSIS
