The 2025 U.S. tariff policies introduce profound uncertainty into the global economic landscape. This report critically examines the implications of recent tariff adjustments and international strategic countermeasures on Aronia Berry Powder competitive dynamics, regional economic interdependencies, and supply chain reconfigurations. Aronia Berry Powder is a natural plant-based powder produced by washing, drying, and finely grinding the fruits of black chokeberry (*Aronia melanocarpa*), rich in anthocyanins, polyphenols, vitamin C, and dietary fiber. Native to North America and later introduced to Europe and Asia, aronia berries are recognized as a "superfruit" due to their exceptionally high antioxidant capacity. The powder exhibits a deep purple-black color with a mildly tart-sweet flavor and intense berry aroma, suitable as a functional food ingredient in smoothies, yogurts, baked goods, or nutrition bars, or for direct brewing.
