Abstracts

The art fund actually invests in artworks in specific blocks in a fund-raising manner. Generally, it has a lock-up period of three years or more. It uses the different characteristics and marketability of each piece of art to make long-term and short-term allocations in order to reduce sales. Risk and increase return on investment. It has a complete structure. Except for the fund itself, which is traded and traded by a team of professional art managers, the purchased art is managed by a trustee unit, and the funds raised to the sale of art are also under the supervision and accounting unit of the legal unit.

The global Art Funds market size was estimated at USD 905.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 5.90% during the forecast period.
