### Report Overview

Arterial blood gas sampling is an invasive procedure that can result in accidental needlestick injury and exposure to bloodborne pathogens. The Arterial blood gas syringe features Needlestick Protection to help prevent accidental needlestick injuries in care setting. Needlestick Protection is engineered as an integral part of the needle to comply with all FDA, OSHA and NIOSH guidelines. Intuitive, single hand safety activation is easy to learn and simple to use. All blood samplers utilize lyophilized heparin to preserve blood sample integrity, which reduces the risk of dilution errors that may be associated with liquid heparin.
