Abstracts

The automotive rental service market encompasses the short-term and long-term leasing of passenger vehicles, commercial vehicles, and specialty vehicles to individuals, businesses, and other organizations through a variety of business models including traditional airport and neighborhood locations, peer-to-peer platforms, and subscription services. This industry is characterized by a complex ecosystem of global franchises, independent operators, and technology-enabled disruptors that cater to diverse customer needs ranging from leisure travel and business trips to replacement vehicles during repairs or temporary mobility solutions. Key operational aspects include fleet management, maintenance, insurance integration, pricing strategies, and digital distribution channels, with market dynamics heavily influenced by tourism trends, economic conditions, regulatory environments, and evolving consumer preferences toward flexible access over ownership.

The global Automotive Rental Service market size was estimated at USD 122500.0 million in 2024 and is projected to grow at a compound annual growth rate (CAGR) of 5.80% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Automotive Rental Service market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current
