## Abstracts

B2B marketplace platforms are a type of software that connects buyers and sellers of goods and services in a business-to-business (B2B) context. B2B marketplace platforms enable online transactions, communication, and collaboration between businesses across various industries and geographies. B2B marketplace platforms can help to reduce costs, increase efficiency, expand market reach, and enhance customer satisfaction for both buyers and sellers. According to International Telecommunication Union (ITU), the global Internet users (online population) were more than 5 billion. And the number of online shoppers was also increasing. In 2022, the global e-commerce market penetration rate increased to 19.7%, and the e-commerce market reached \$5.5 trillion. At the same time, the Asian e-commerce market ranked at the top of the revenue ranking, which has reached \$1.8 trillion. According to the National Bureau of Statistics, China was the largest online retail market in 2022, with online retail sales of 13.79 trillion yuan and a year-on-year increase of 4%. Among them, the online retail sales of physical goods were 11.96 trillion yuan, with a year-on-year increase of 6.2%, which accounted for 27.2% of the total retail sales of consumer goods.

The global B2B Marketplace Platforms market size was estimated at USD 736.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 7.80% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global B2B Marketplace Platforms market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.

A significant focus of this report lies in the competitive landscape of the global B2B Marketplace Platforms market. It offers detailed profiles of major players, including their market shares, performance metrics, product portfolios, and operational status. This enables stakeholders to identify leading competitors and gain a nuanced understanding of market rivalry and structure.

In summary, this report serves as an essential resource for industry participants, investors, researchers, consultants, and business strategists, as well as anyone planning to enter or expand their presence in the B2B Marketplace Platforms market.
