### Report Overview:

Ballet is a light, soothing and elegant dance. Ballet originated in Italy, but flourished in France. Part of its gestures can be traced back to ancient Egyptian sacrificial dances. And it is a kind of classical music accompaniment with gorgeous costumes and stage scenery. However, some dance dramas created by modern artists such as George Balanchine have not followed the above conventions.

Like Western drama, early ballet prohibited women from participating in performances, and all female actors were reversed by male actors. But later this regulation was relaxed, coupled with the introduction of toes, the ballet world became the world of women.

The Global Ballet Performance Market Size was estimated at USD 99.54 million in 2023 and is projected to reach USD 252.73 million by 2029, exhibiting a CAGR of 16.80% during the forecast period.
