Abstracts

"Beyber Yarn," often referred to as "natural yarn" or "undyed yarn," refers to yarn that has not been dyed or chemically treated after spinning. It retains its natural color, which can vary depending on the fiber used. This yarn is appreciated for its natural look and feel, and it's often preferred for applications where a natural aesthetic is desired or where further dyeing or processing will take place. Beyber yarn is commonly used in various textile applications, including weaving, knitting, and crochet. It's a popular choice for eco-conscious consumers due to the absence of dyes and chemicals. The term "beyber" itself might be a less common or regional term, while "natural yarn" or "undyed yarn" are more widely used.
