Report Overview

The breakdown van, also known as a recovery vehicle or tow truck, is a specialized commercial vehicle designed to transport disabled, improperly parked, impounded, or otherwise inoperable motor vehicles. These vans are equipped with hydraulic lifts, winches, and towing mechanisms to safely secure and transport cars, trucks, or motorcycles, often in emergency roadside assistance scenarios. They serve a critical role in automotive logistics, law enforcement, and private towing services, with variations including flatbed, hook-and-chain, and wheel-lift models tailored for different towing needs.
