Report Overview

Brown Seaweed Extract Supplements is a brown seaweed pigment that is found in most brown seaweeds, as well as a few other marine sources. It is a xanthophyll, which is a molecule structurally similar to beta-carotene and vitamin A; yet fucoxanthin does not possess vitamin-like activity in the body. It also possesses other health benefits, such as correcting abnormalities in glucose metabolism in muscle tissue which can help diabetics and might reduce cholesterol levels and triglycerides by currently unverified mechanisms. Reductions in blood pressure and reductions in both liver fat stores and liver enzyme values have been noted with fucoxanthin supplementation in humans.
