Report Overview:

Capsule Smart Projector is becoming popular recently, such as Anker's new Nebula entertainment brand officially launched its second portable projector this year at CES, and despite its shortcomings, it's one of the most compelling new gadgets of the year.

The Nebula Capsule is both a projector and a 360 degree Bluetooth speaker, crammed into a case that's roughly the size and shape of a soda can. The speaker sounds okay, if a bit tinny compared to Anker's excellent SoundCore speakers, but that's not why anybody's buying this thing, so let's talk about the projector.

The Global Capsule Smart Projectors Market Size was estimated at USD 150.29 million in 2023 and is projected to reach USD 218.06 million by 2029, exhibiting a CAGR of 6.40% during the forecast period.
