Report Overview

A casino hotel is an establishment consisting of a casino with temporary lodging provided in an on-premises hotel. Customers receive the benefits of both gambling facilities and lodging. Since the casino and hotel are located on the same premises, a gambler's necessities can be provided for in one location. The casino may offer common forms of gambling including slot machines, table games, and sports betting. The hotel, nearby or directly connected to the casino, provides lodging and may include other popular services such as food and beverages, valet parking, a swimming pool, health club, and on-site entertainment. Many casino hotels in popular destinations such as the Las Vegas Strip and Atlantic City, New Jersey, operate as resort hotels with additional services such as upscale lodgings, ballrooms, and large conference facilities. Such establishments recruit their gambling accommodations with workers to manage not only all the game processes but also more common entertainment elements for which they need choreographers, conjurers, and streamers.

The global Casino Hotel market size was estimated at USD 27150 million in 2023 and is projected to reach USD 24801.99 million by 2032, exhibiting a CAGR of -0.01 during the forecast period.

North America Casino Hotel market size was estimated at USD 6953.76 million in 2023, at a CAGR of -0.01 during the forecast period of 2024 through 2032.
