Abstracts

A charter flight refers to a flight that is not part of a regular airline's scheduled service but is arranged directly between an airline and a customer or group of customers. Unlike commercial airlines that operate scheduled flights with fixed routes and timetables, charter flights are often tailored to the specific needs and preferences of the charterer. GCC core Charter Flight include Saudia Airline, Abu Dhabi Aviation and Qatar Airways. The top three companies hold about 54% of the market. Saudi Arabia is the largest charter market in the GCC with a market share of around 37%, followed by the United Arab Emirates and Qatar with a market share of 34% and 14% respectively. In terms of product type, Private Charter is the largest segment with approximately 72% market share, while in terms of applications, Passengers are the largest downstream segment with approximately 67% market share.
