### Report Overview

Clear aligner sheets are custom-made, transparent trays that are used to straighten teeth as an alternative to traditional braces. These sheets are typically made from a flexible plastic material and are designed to gradually shift the teeth into the desired position. Clear aligner sheets are popular among individuals seeking a more discreet and convenient orthodontic treatment option. They are removable, making it easier to maintain oral hygiene compared to traditional braces. Additionally, clear aligner sheets are known for being more comfortable to wear as they do not have sharp edges or wires that can cause irritation to the mouth.
