### Report Overview:

Closed-End Wire Connectors are ideal for making a simple connection of two or more wires to create a pigtail connection. Simply stripping the wires that need joining, inserting them into the barrel of the connector and crimping together using a suitable crimper, that's the easy way to terminate Closed-End Wire Connectors. The correct sized crimp connector can be calculated by adding all conductor cross-sectional areas together (mm<sup>2</sup>). The compression style electrical connection provides good tensile strength while maintaining maximum contact with the wire.
