Report Overview

Commercial auto leasing refers to a business arrangement in which a company leases vehicles for their commercial purposes rather than purchasing them outright. This type of leasing typically involves renting vehicles such as trucks, vans, or other vehicles used for business transportation and delivery services. The leasing agreement usually involves a fixed term during which the company pays a monthly fee to use the vehicles. At the end of the lease term, the company may have the option to return the vehicles, extend the lease, or purchase the vehicles at a predetermined price.
