Report Overview

Real estate PE is essentially a type of private equity investment fund. Its characteristics and operating principles are basically similar to those of PE funds. At the same time, since real estate PE belongs to the category of industrial funds and invests in the real estate industry directionally, it belongs to real estate investment funds. One of them, like other investment funds, raises funds through the issuance of fund shares to qualified investors, and is managed and invested by a professional management team, mainly in the real estate field, with both benefits and risks.

Real estate private equity funds are a type of real estate investment funds. Compared with public REITs, real estate private equity funds have many shortcomings. For example, they are not as good as real estate REITs in terms of maturity, amount, and management. The future development of real estate private equity funds to REITs is huge direction.

According to the types of real estate private equity funds, according to whether they are redeemable, they can be divided into open and closed types; according to the profit model, they can be divided into equity type, mortgage type, mixed type, etc.; according to the trust period, they can be divided into limited-term real estate investment funds and indefinite real estate investment funds; according to the source of funds and management methods, it can be divided into three forms: independent, subsidiary, and semi-subsidiary.
