### Report Overview

Commercial umbrella insurance, or sometimes just called umbrella coverage, is a type of excess liability insurance policy that is broader than an ordinary excess liability policy. An umbrella policy can provide additional liability limits and protection to help cover costs of catastrophic claims and lawsuits when your business is found legally liable for losses. When the costs of such claims exceed the limits provided by your primary commercial liability coverages, the limits of the commercial umbrella policy “drop-down” to provide additional, or excess, limits of coverage.
