Abstracts

Commodity grade stevia sugar refers to standardized, commercially produced sweeteners derived from the leaves of the *Stevia rebaudiana* plant, primarily consisting of high-purity steviol glycosides such as rebaudioside A, which undergo industrial extraction, purification, and often blending with other ingredients (like erythritol or maltodextrin) to achieve a granulated or powdered form that closely mimics the taste, texture, and functionality of sucrose while providing intense sweetness with minimal calories.
