## Abstracts

Concrete cutting saws are tools (construction equipment) used to cut hard objects such as concrete and asphalt. Cutting concrete by human power is called "digging," while cutting by the power of a tool such as a concrete cutting saw is called "demolition." When compared to human-powered cutting operations, noise and vibration are reduced more when concrete cutting saws are used. Another advantage is that the amount of dust generated is also reduced and cutting can be done with high precision.
