## Abstracts

Lotion spray is a type of spray, a lotion specially designed for "lazy people". Toner spray, simply put, is to spray the lotion with extremely fine water particles through the high-pressure system, so that the tiny droplets of the lotion float in the air, thus forming a white mist, similar to the effect of natural fog. Make-up water is generally a transparent liquid, which can remove dirt and oily secretions on the skin, keep the skin stratum corneum with moderate moisture, and have the functions of softening the skin and preventing rough skin. The total size of the global beauty industry in 2022 was about US\$ 427 billion, with the sales of skin care products was about US\$ 190 billion, perfumes US\$ 70 billion, color cosmetics US\$ 80 billion, hair care products US\$ 90 billion. Head beauty and personal care companies are concentrated in Europe and the United States. More than one-third of the top 100 companies are headquartered in the United States, and 22.9% of the companies are located in France.

The global Cosmetic Moisturizing Spray market size was estimated at USD 883.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 5.20% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Cosmetic Moisturizing Spray market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current

status and future outlook of business organizations operating in this sector.

A significant focus of this report lies in the competitive landscape of the global Cosmetic Moisturizing Spray market. It offers detailed profiles of major players, including their market shares, performance metrics, product portfolios, and operational status. This enables stakeholders to identify leading competitors and gain a nuanced understanding of market rivalry and structure.

In summary, this report serves as an essential resource for industry participants, investors, researchers, consultants, and business strategists, as well as anyone planning to enter or expand their presence in the Cosmetic Moisturizing Spray market.

### **Global Cosmetic Moisturizing Spray Market: Market Segmentation Analysis**

This research report provides a detailed segmentation of the market by region (country), key manufacturers, product type, and application. Market segmentation divides the overall market into distinct subsets based on factors such as product categories, end-user industries, geographic locations, and other relevant criteria.

A clear understanding of these market segments enables decision-makers to tailor their product development, sales, and marketing strategies more effectively to meet the unique needs of each segment. Leveraging market segmentation insights can significantly enhance targeted approaches, optimize resource allocation, and accelerate product innovation cycles by aligning offerings with the specific demands of diverse customer groups.
