### Report Overview:

Craft soda, also known as specialty, small-batch, or artisanal soda, is a kind of soda drink brewed in small batches and contain natural ingredients, including natural sweeteners like pure cane sugar, stevia, and honey.

Craft sodas can cost three times as much as a traditional one and they often are in four packs, rather than six- or 12-packs. For instance, a four-pack of 12-ounce glass bottles of Dry Sparkling, a juniper-flavored soda, costs \$5.99, for example, and contain less soda than a regular carbonated beverage. With traditional colas and other soft drinks under attack by nutritionists, craft soft drinks -- also known as artisanal, specialty or small-batch soda -- are capturing share by hyping premium and natural ingredients, creative flavors, limited runs, unusual packaging or their local roots.

The Global Craft Soda Market Size was estimated at USD 786.80 million in 2023 and is projected to reach USD 1060.42 million by 2029, exhibiting a CAGR of 5.10% during the forecast period.
