Abstracts

The 2025 U.S. tariff policies introduce profound uncertainty into the global economic landscape. This report critically examines the implications of recent tariff adjustments and international strategic countermeasures on Delta-9 THC Beverage competitive dynamics, regional economic interdependencies, and supply chain reconfigurations. Delta-9 THC beverages are functional drinks featuring Delta-9-tetrahydrocannabinol as the key active compound. The global Delta-9 THC Beverage market size was estimated at USD 289.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 6.70% during the forecast period.
