Abstracts

The 2025 U.S. tariff policies introduce profound uncertainty into the global economic landscape. This report critically examines the implications of recent tariff adjustments and international strategic countermeasures on Drying Hammer Crusher competitive dynamics, regional economic interdependencies, and supply chain reconfigurations.The drying hammer crusher is a composite crushing equipment that can dry and crush materials simultaneously. It is mainly used for medium-hard and brittle materials with high water content. The equipment integrates hot air channels and high-speed hammer rotors in its structure.
