Report Overview

This report focus on Electro Acupuncture Machine market.

Electroacupuncture is similar to acupuncture, a widely practiced form of traditional Chinese medicine (TCM). Acupuncture involves the use of thin needles to stimulate specific pressure points linked to unwanted symptoms. In standard acupuncture, one needle is used at each treatment point. Electroacupuncture is a modified form that uses two needles. A mild electric current passes between these needles during treatment. This current generally applies more stimulation to acupoints than needle twirling or other hand manipulation techniques an acupuncturist might use.
