### Report Overview

The PMA market (parts manufactured under an FAA-PMA approval consists of alternative manufacturers, which obtain the Parts Manufacturer Approval (PMA) and are not affiliated with any OEMs. New technologies, processes and materials allow PMA manufacturers to offer often even better alternatives which are identical in design yet substantially cheaper. DER-repairs are individual repair practices which restore a broken part or component back to the initial design requirements. All alternative repair practices are approved by a Designated Engineering Representative (DER) of the Civil Aviation Authority. PMA parts and DER repairs are effective solutions for airlines and MROs, wishing to enhance their competitiveness and performance in the modern aviation industry. Approved and certified by the FAA, EASA and a range of other CAAs, alternative parts are as reliable and airworthy as original equipment.
