Abstracts

The 2025 U.S. tariff policies introduce profound uncertainty into the global economic landscape. This report critically examines the implications of recent tariff adjustments and international strategic countermeasures on Ethylene Bis Stearamide (EBS) competitive dynamics, regional economic interdependencies, and supply chain reconfigurations. Ethylene Bis Stearamide (EBS) is a synthetic wax widely used as a lubricant, dispersing agent, and anti-blocking additive in plastics, rubber, coatings, inks, and powder metallurgy. Its chemical structure, derived from ethylenediamine and stearic acid, gives it excellent thermal stability, low volatility, and smooth surface characteristics. EBS enhances processability in thermoplastics like PVC, ABS, and polypropylene, improves pigment dispersion, and provides slip and anti-scratch effects in surface coatings. Due to its non-toxic and chemically inert nature, EBS is also used in food-grade applications and personal care products. Global ethylene bis-stearamide (EBS) production exceeded 120,000 metric tons in 2024, with an average market price of \$1,800 per ton. Asia-Pacific is the largest consumer of EBS. This is driven by high production of plastics and rubber in China, India, and Southeast Asia. Rapid industrialization and infrastructure development in the region continue to boost demand for EBS in PVC, PE films, and coatings. North America holds a mature market with stable demand in plastics, automotive coatings, and powder metallurgy. The U.S. also has a notable presence of EBS manufacturers and compounders, focusing on high-performance and specialty formulations. Europe focuses on environmentally friendly and REACH-compliant applications. Demand is strong in engineering plastics, automotive coatings, and masterbatches, particularly in Germany, Italy, and France. Latin America & Middle East/Africa are emerging markets, with growth led by packaging, construction, and automotive components. However, limited local production results in heavy reliance on imports from Asia and Europe. The global core manufacturers of Ethylene Bis Stearamide (EBS) include KLK OLEO, Cargill, Emery Oleochemicals, M?nzing Chemie

and Arxada, etc. The top three manufacturers account for approximately 35% of the global share.

The global Ethylene Bis Stearamide (EBS) market size was estimated at USD 221.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 5.20% during the forecast period.
