Abstracts

Facial make-up is a category of cosmetic products that are applied to the face to enhance or alter one's appearance. Facial make-up includes products such as face powder, facial foundation, facial concealer, face bronzer, blush, and other types. Facial make-up can be used to conceal blemishes, highlight natural features, add color to the face, or create different looks for different occasions. Facial make-up can also contain natural or organic ingredients, which are preferred by some consumers who are concerned about the harmful effects of synthetic chemicals on their skin and health. The total size of the global beauty industry in 2022 was about US\$ 427 billion, with the sales of skin care products was about US\$ 190 billion, perfumes US\$ 70 billion, color cosmetics US\$ 80 billion, hair care products US\$ 90 billion. Head beauty and personal care companies are concentrated in Europe and the United States. More than one-third of the top 100 companies are headquartered in the United States, and 22.9% of the companies are located in France.

The global Facial Make-up market size was estimated at USD 492.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 7.20% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Facial Make-up market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market

positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.

A significant focus of this report lies in the competitive landscape of the global Facial Make-up market. It offers detailed profiles of major players, including their market shares, performance metrics, product portfolios, and operational status. This enables stakeholders to identify leading competitors and gain a nuanced understanding of market rivalry and structure.
