Report Overview:

A family entertainment center (or centre), often abbreviated FEC in the entertainment industry (also known as an indoor amusement park or indoor theme park), is a small amusement park marketed towards families with small children to teenagers, and often entirely indoors or associated with a larger operation such as a theme park. They usually cater to "sub-regional markets of larger metropolitan areas." FECs are generally small compared to full-scale amusement parks, with fewer attractions, a lower per-person per-hour cost to consumers than a traditional amusement park, and not usually major tourist attractions, but sustained by an area customer base. Many are locally owned and operated, although there are a number of chains and franchises in the field. FECs are sometimes called family amusement centers, play zones, family fun centers, or simply fun centers. Some non-traditional FECs, called urban entertainment centers (UECs), with more customized and branded attractions and retail outlets, are associated with major entertainment companies and may be tourist destinations. Others, sometimes operated by Non-Profit organizations as Children's Museums or Science Centers, tend to be geared toward edutainment experiences rather than simply amusement. FECs may also be adjuncts to full-scale amusement parks.

The Global Family Entertainment Center (FEC) Equipment Market Size was estimated at USD 563.78 million in 2023 and is projected to reach USD 971.84 million by 2029, exhibiting a CAGR of 9.50% during the forecast period.
