Abstracts

Fan-fold labels make a neat concise stack and are easy to store, handle, and ship. No special equipment is required to dispense the fan-fold labels into the printer. They may be folded at every single label or folded in batches, giving flexibility in the label stack footprint. On the surface, they present a much easier solution than rolled media which requires winders and unwinders to manage the media. A box of fanfold labels replaces rolls and feeds through a slot in the back or bottom of the printer. When running larger jobs, the labels will self-stack once printed.
