Report Overview

Fiber termination box (FTB), also called optical termination box (OTB) is a small size and compact fiber management product used in FTTx (Fiber to the x, including FTTH, FTTB etc.) cabling—fiber cabling and cable management. In some cases, fiber termination box can be regarded as the mini size of fiber optic patch panel and ODF. Our terminations boxes are compatible with most adapter types and features with exit points for patch cables and entry points for loose tube, tight buffer, pre-terminated, or steel armored cables. Each enclosure has integrated strength member tie positions and bend radius protection with the addition of a removable front door allowing for quick and easy installation and maintenance.
