Report Overview

Food Display Warmer can be used to show pizzas, entrees, chicken wings, muffins, and other hot foods. Food display warmers are perfect for deli, coffee shop, bakery, cafe, or supermarket. These units hold hot food for hours, and are great for front-of-house merchandising. Clear glass windows and interior LED lighting draw customers' attention to baked goods and other hot treats. There are both countertop heated and floor models, available in a variety of widths. Smaller merchandising warmers have only one shelf and are suitable for holding packaged items at deli counters and convenience stores. Larger, multi-shelved heated display cabinets accommodate full-sized food pans. Most heated displays include a water pan which holds water that then evaporates over time, providing the product with humidity and preventing it from drying out.
