Abstracts

A Frozen Vegetarian typically refers to vegetarian food products that are frozen for preservation and convenience. These can include a wide variety of frozen meals or ingredients suitable for vegetarians. While traditional vegetarians and vegans have always been a part of the market, the rise of the "flexitarian" diet has been a major factor in the demand for frozen vegetarian products. Flexitarians are individuals who primarily follow a plant-based diet but occasionally include meat in their meals. This dietary shift has contributed to a significant increase in the consumption of vegetarian products, as more consumers are seeking healthier alternatives to meat, even if they are not fully committing to a vegetarian lifestyle. Frozen vegetarian products provide these consumers with convenient and diverse meal options that align with their dietary preferences.
