Report Overview:

A frozen yogurt machine is quite similar in appearance and operation to a soft serve machine. These are large hard plastic and stainless steel appliances that freeze, blend and dispense the frozen yogurt product. Anywhere from one to four hoppers hold the frozen yogurt mix. The frozen yogurt flows through a spigot at the bottom of the machine. Most frozen yogurt machines have a stand-by switch that helps keep a product at safe temperatures during long no sale periods. This is an important feature because it can help keep product safe during long no-sale periods. Also, many of the more contemporary frozen yogurt displays have digital displays.
