Report Overview

Furniture refers to movable objects intended to support various human activities such as seating (e.g., chairs, stools, and sofas), eating (tables), and sleeping (e.g., beds). Furniture is also used to hold objects at a convenient height for work (as horizontal surfaces above the ground, such as tables and desks), or to store things (e.g., cupboards and shelves). Furniture can be a product of design and is considered a form of decorative art. In addition to furniture's functional role, it can serve a symbolic or religious purpose. It can be made from many materials, including metal, plastic, and wood.

The home furniture segment accounts for the largest revenue share due to the evolution of flat-pack and RTA furniture. To cater to the rising demand, the vendors in the market are focusing on manufacturing flat-pack furniture for medium-price segments and solid wood furniture targeted at the high-end market.

The Global Furniture Market Size was estimated at USD 411291.92 million in 2021 and is projected to reach USD 545201.09 million by 2028, exhibiting a CAGR of 4.11% during the forecast period.

This report provides a deep insight into the global Furniture market covering all its essential aspects. This ranges from a macro overview of the market to micro details of the market size, competitive landscape, development trend, niche market, key market drivers and challenges, SWOT analysis, Porter’s five forces analysis, value chain analysis, etc.
