Galvanic bath is an alternative medical treatment (a type of electrotherapy) based on the simultaneous use of water and electric current. The Galvanic Therapy Bathtubs Market is primarily driven by the growing interest in holistic health and wellness, with consumers seeking innovative and non-invasive therapeutic solutions. These specialized bathtubs utilize galvanic therapy, which involves the use of low-level electrical currents to stimulate the body and promote various health benefits, such as pain relief, improved circulation, and skin rejuvenation.
