Abstracts

Game marketing services refer to market promotion and user acquisition solutions specifically provided for game products, including brand communication, public relations activities, social media operations, KOL placement, advertising planning, community management, pre-promotion and user retention. With the continued expansion and intensified competition in the global game industry, manufacturers are increasingly relying on professional marketing teams or organizations to improve user conversion rates and brand influence through refined operations and data-driven strategies. In the future, with the development of AI marketing, metaverse interaction, cross-platform integration and global localization promotion, game marketing services will tend to be personalized, automated and globalized, bringing more efficient market growth methods to game companies.

The global Game Marketing Services market size was estimated at USD 2458.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 9.00% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Game Marketing Services market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.
