Abstracts

Green tea supplements are concentrated formulations derived from the leaves of the *Camellia sinensis* plant, which are minimally processed to preserve their natural antioxidants and beneficial compounds. These supplements typically contain high levels of catechins, particularly epigallocatechin gallate (EGCG), which are known for their potential health-promoting effects. Green tea supplements are available in various forms, including capsules, tablets, powders, and beverages, making them accessible for a wide range of consumers.

The global Green Tea Supplements market size was estimated at USD 1684.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 8.60% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Green Tea Supplements market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.

A significant focus of this report lies in the competitive landscape of the global Green Tea Supplements market. It offers detailed profiles of major players, including their market shares, performance metrics, product portfolios, and operational status. This
