Report Overview:

Guest Wi-Fi Providers are software or service providers that enable businesses to offer logins to secure internet networks in public venues, such as restaurants, hotels, retail stores, and airports. These providers integrate with Wi-Fi networking infrastructure and act as a portal to access those networks. Besides providing customers access to networks, guest Wi-Fi also provides businesses with insights into the customers that are inside their physical venues, including demographic information and location tracking. This insight into customer behavior helps businesses to enhance the overall customer experience. Many guest Wi-Fi providers also offer data management platforms (DMPs) or customer data platforms (CDPs) to store consumer and user information. They may also provide visitor behavior intelligence options to extract insights from consumer behavior. Some guest Wi-Fi providers offer functionality of location-based marketing software to personalize and target marketing campaigns, advertisements, or coupons based on the information retrieved by guest Wi-Fi solutions.

The Global Guest Wi-Fi Providers Market Size was estimated at USD 208.96 million in 2023 and is projected to reach USD 291.41 million by 2029, exhibiting a CAGR of 5.70% during the forecast period.
