Report Overview

Hair fiber is a product meant for those suffering from hair loss. Their main function is to make sure they camouflage that bald patch you have in the hair. Actually, these hair fibers are meant for both men and woman as baldness is for both. They are manufactured from a protein known as keratin, which is the same that is contained in real hair. When applied, these hair fibers do stick to the natural hair on one's head, making bald spots to be covered. It is because of their function that they are known as hair concealer or hair camouflage.
