Report Overview

Health checkup service is the process by which a medical practitioner examines the body of a patient for any possible signs or symptoms of a medical condition. It generally consists of a series of questions regarding patient medical history followed by an examination of the symptoms. Together, the medical history and the physical examination aids in determining the correct diagnosis and devising the treatment plan. This data then becomes part of the medical record. The physical examination may be used to investigate a patient's symptoms or complaints or as a routine screening procedure in an asymptomatic patient, in which case it is referred to as a routine physical, general physical examination or check-up.
