Abstracts

A high security number plate is an aluminium-made number plate that is fixed onto a vehicle by a minimum of two non-reusable snap-on locks and has various identifiable features. On the top left corner of an HSRP, there is a blue-coloured chromium-based hologram of the size 20mm x 20mm of Ashoka Chakra. On the bottom left corner, there is a unique laser-branded 10-digit permanent identification number (PIN). Moreover, the numerals and alphabets of the registration number, have a hot-stamped film applied over them and are preceded by a blue 'IND' acronym. An HSRP is only issued after the digital registration of the vehicle and is linked to the vehicle. As such, the plates cannot be used on a different car and should act as a deterrent to theft and any other kind of misuse of these plates.
