Report Overview

In-home meal preparation service refers to a service where professional chefs or cooks come to a person's home to prepare meals. This service is typically used by individuals or families who do not have the time or ability to cook their own meals but still want to enjoy home-cooked food. The chef or cook will plan the menu, shop for ingredients, and prepare the meals in the client's kitchen. They may also provide additional services such as meal planning, grocery shopping, and cleaning up after the meal. This service can be customized to cater to specific dietary needs or preferences and can be scheduled on a regular basis or for special occasions.

The global In-home Meal Preparation Service market size was estimated at USD 137000 million in 2023 and is projected to reach USD 302499.26 million by 2032, exhibiting a CAGR of 9.20% during the forecast period.
