Report Overview

All the music played by the business site through professional technical equipment is collectively referred to as 'background music'. In the shopping environment, store music is an important factor affecting consumers' shopping experience. The compound annual growth rate from 2019 to 2025 is 6%, according to QYR analyst market research. The increase in the use of background music in travel and retail stores was one of the major growth factors for the global market. Using background music in these places can reduce the boredom of visitors and improve their overall experience. Regionally, North America and Europe are relatively mature markets that are dominating market development. In 2018, the north American background music market grew at a compound annual rate of 6% over the last five years. The overall European market for background music is growing at a compound annual rate of 7 per cent. The asia-pacific region will be the fastest growing market for some time to come, especially for the fast-growing markets of Japan, China and India. Mood Media, SiriusXM for Business, Usen Corporation, TouchTunes, PlayNetwork, Pandora for Business are the leading providers of in-store music services in the global market. The nature of the service determines the existence of many small suppliers in the market.

The global In-store Music Service market size was estimated at USD 1738 million in 2023 and is projected to reach USD 2986.55 million by 2032, exhibiting a CAGR of 6.20% during the forecast period.

North America In-store Music Service market size was estimated at USD 502.29 million in 2023, at a CAGR of 5.31% during the forecast period of 2024 through 2032.
