Abstracts

Incense sticks, also called incense sticks or balsam, are thin cylinders or sticks made of bamboo or wood coated with a combustible material, usually a combination of aromatic ingredients such as resins, gums, wood powders, and essential oils. They are used for a variety of purposes, including rituals, meditation, aromatherapy, and to scent a room. The demand for home fragrances, including incense sticks, is rising due to the growing awareness about the impact of ambience and scent on mood and well-being.
