An indicator tape dispenser is a specialized tool designed to hold, dispense, and cut sterilization indicator tape efficiently and hygienically in medical, laboratory, or sterilization settings. Typically constructed from durable materials such as stainless steel or medical-grade plastic, the dispenser ensures the tape remains uncontaminated and easily accessible for sealing sterilization packs or wrapping instruments. It often features a serrated edge for precise cutting, a non-slip base or mounting option for stability during use, and may accommodate various tape widths or multiple rolls.
